

Technical Coordination Report

Model, drawing, report and calculation coordination

PROJECT	Moskee Hacı Bayram - BB35 Pilot 1
LOCATION	Bikkersweg 88, Bunschoten
ISSUE	2026-07-27
STATUS	CONCEPT - NOT FOR SUBMISSION OR EXECUTION

This report contains actual generated concept deliverables. It is not a professional certification and is not approved for permit submission or construction.

1. Coordination basis

The central geometric model is the single geometry source. Drawing, schedule, calculation and report interfaces are checked against revision C02.

2. Clash control

Twenty-four automated concept clashes were reviewed. Nineteen are closed conceptually and five remain accepted conditions requiring professional confirmation.

Status	Count
Closed concept	19
Condition accepted	5

3. Discipline interfaces

Architecture, structure, MEP, fire, drainage, site, parking, AERIUS, specifications, quantities and issue indexes are cross-linked.

4. Release boundary

TECHNICAL CONCEPT - NOT FOR PERMIT SUBMISSION OR EXECUTION

Technical coordination completion does not constitute professional approval.
