

Technical Specification

Concept technical specification for permit/tender/execution preparation

PROJECT	Moskee Hacı Bayram - BB35 Pilot 1
LOCATION	Bikkersweg 88, Bunschoten
ISSUE	2026-07-27
STATUS	CONCEPT - NOT FOR SUBMISSION OR EXECUTION

This report contains actual generated concept deliverables. It is not a professional certification and is not approved for permit submission or construction.

1. General requirements

TECHNICAL CONCEPT - NOT FOR PERMIT SUBMISSION OR EXECUTION

All work shall be coordinated with the central model, drawing set, schedules and calculation workbook. Deviations require a recorded revision.

2. Existing conditions

Existing dimensions, materials and structural conditions shall be field verified before procurement or construction.

3. Component assemblies

The following concept assemblies define the coordinated technical basis.

ID	Component	Thickness	Status
EXT-W01	External wall	350	CONCEPT
INT-W01	Internal partition	125	CONCEPT
FLO-G01	Ground floor	420	CONCEPT
FLO-101	First floor	350	CONCEPT
ROF-001	Flat roof	420	CONCEPT
WIN-001	Window system	90	CONCEPT
DOR-001	External door	70	CONCEPT
DOR-002	Fire-resisting door	54	CONCEPT
STA-001	Stair	180	CONCEPT
FND-001	Perimeter strip foundation	400	SIMULATION_ONLY
FND-002	Foundation beam	600	SIMULATION_ONLY
JNT-001	New-existing movement joint	40	CONCEPT
DRN-001	Roof outlet	0	CONCEPT
FIN-001	Prayer room floor finish	20	CONCEPT
FIN-002	Wet room floor finish	45	CONCEPT
CLG-001	Acoustic ceiling	180	CONCEPT

4. Workmanship and interfaces

New-to-existing joints, fire stopping, waterproofing, air sealing, acoustic continuity and service penetrations require coordinated shop details and specialist approval.

5. Testing and handover

Testing, inspection, commissioning, as-built records and operation/maintenance information shall be specified at final issue.

6. Exclusions

Professional evidence and final authority acceptance are excluded from revision C02.
