

EVIDENCE ACQUISITION - MASTER REQUEST

Uitbreiding Haci Bayram Moskee

CONCEPT REVIEW - FINAL GENERATION BLOCKED

Eight evidence packages are required before final structural, permit, parking, AERIUS, specification, quantity and cost outputs can be released.

REQ-101 - Original existing-building drawing set

Original complete 19-page PDF dated 03-03-2004; readable scales, details and revision identity.

Responsible: Owner / architect

Unlocks: building_model, architectural_drawings, structural_design, quantity_takeoff, cost_estimation

REQ-102 - Cadastral DWG and surveyed site base

Original DWG/DXF plus plotted PDF with parcel boundaries, north, scale and verified dimensions.

Responsible: Owner / architect / surveyor

Unlocks: site_plan, building_model, architectural_drawings, permit_and_bopa

REQ-103 - Structural survey of the existing building

Signed survey covering foundations, frame, floors, roof, defects and connection zones.

Responsible: Structural engineer

Unlocks: structural_design, technical_specification, material_schedules, cost_estimation

REQ-104 - Geotechnical investigation and foundation advice

Project-specific CPT/soil data, groundwater level, settlement assessment and foundation recommendation.

Responsible: Geotechnical engineer

Unlocks: structural_design, quantity_takeoff, cost_estimation, technical_specification

REQ-105 - Final technical, Bbl, fire and MEP assumptions

Coordinated register for occupancy, fire, escape, ventilation, daylight, accessibility, materials and installations.

Responsible: Architect / Bbl advisor / MEP advisor

Unlocks: architectural_drawings, permit_and_bopa, technical_specification, material_schedules, cost_estimation

REQ-106 - Parking field counts and use-right evidence

Time-stamped counts, public/private classification and written use agreements for shared parking.

Responsible: Traffic consultant

Unlocks: parking_and_traffic, permit_and_bopa, aerius

REQ-107 - Agreed occupancy and operational programme

Signed existing/future occupancy, prayer capacity, weekly programme and peak-event scenarios for 140 m2 scope.

Responsible: Owner / architect / traffic consultant

Unlocks: permit_and_bopa, parking_and_traffic, aerius, architectural_drawings

EVIDENCE MASTER REQUEST - CONTINUED

Uitbreiding Haci Bayram Moskee

CONCEPT REVIEW - FINAL GENERATION BLOCKED

REQ-108 - AERIUS construction and operational activity data

Construction duration, equipment, fuel, transport, routes and operational traffic data in structured form.

Responsible: Structural/build-method advisor and traffic consultant

Unlocks: aerius, permit_and_bopa
