

REQ-105 - EVIDENCE REQUEST

Uitbreiding Haci Bayram Moskee

CONCEPT REVIEW - FINAL GENERATION BLOCKED

Final technical, Bbl, fire and MEP assumptions

Priority: 5 | Responsible: Architect / Bbl advisor / MEP advisor

REQUESTED EVIDENCE

Coordinated register for occupancy, fire, escape, ventilation, daylight, accessibility, materials and installations.

ACCEPTANCE CRITERIA

1. Use and occupancy classification are stated.
2. Fire compartments, resistance, escape and emergency provisions are addressed.
3. Ventilation, daylight, accessibility and sanitary assumptions are addressed.
4. MEP systems and service interfaces are defined.
5. Architect/Bbl/fire/MEP reviewers approve the coordinated register.

SUBMISSION CONTROL

- Provide original files, not screenshots or summaries.
- Include professional_verification.json completed by the responsible reviewer.
- Phoenix calculates SHA-256 during evidence intake.
- Acceptance unlocks only the listed downstream modules.
